

COMPRESSOR WARRANTY POLICY

All AP Air compressors are warranted to be free from defective materials and/or workmanship for the period specified - from date of purchase.

Compressors 1 Year

Reman Compressors 6 Months

Compressor Kits..... 1 Year

A copy of the original work order showing the following steps were taken when installing a compressor must be provided before warranty will be considered.

FAILURE TO PROVIDE WORK ORDER OR FOLLOW THESE 8 STEPS WHEN INSTALLING A COMPRESSOR WILL VOID WARRANTY

1. Check compressor clutch prior to installation for proper air gap and any misalignment.
2. Check compressor for proper oil amount per OEM or manufacturers recommendation.
3. Must flush A/C system with proper flush and flushing method.
4. Must replace filter drier or accumulator.
5. Must replace expansion valve or orifice tube.
6. Check for proper airflow through cooling fins of condenser and radiator and replace if needed
7. Evacuate system to deep vacuum, 29.95 In.-HG, of vaccum.
8. Check for correct freon/gas charge.

No labor or refrigerant allowance will be allowed for losses involved in the installation or reinstallation of the compressor. During the warranty period, parts determined by AP Air to be covered will be repaired or replaced at AP Air's discretion. Approved warranties are non-refundable and will be in the form of merchandise credit. All warranties of compressors are to the original owner/purchaser only; a transfer of ownership or any 3rd party installation will terminate the warranty. All compressors are to be installed by an authorized dealer or repair technician. This warranty does not cover defects caused by customer neglect, incorrect application, wiring, alteration or repairs made outside the company's authorization.
